# E-DigiPass

Instruction for Legal Entities

## REGISTRATION STEP

E-DigiPass registration can be completed on the web version of Internet Banking by going to My profile › Devices › Add e-DigiPass.

ელექტრონული დიჯიპასის დამატება

← უკან

When the e-DigiPass is added, the user will receive a 10-digit activation code and a 4-digit PIN code. The 10-digit activation code is used once for activating the e-DigiPass, and the 4-digit PIN code is needed for every transfer to generate a one-time TAN code using the e-DigiPass.

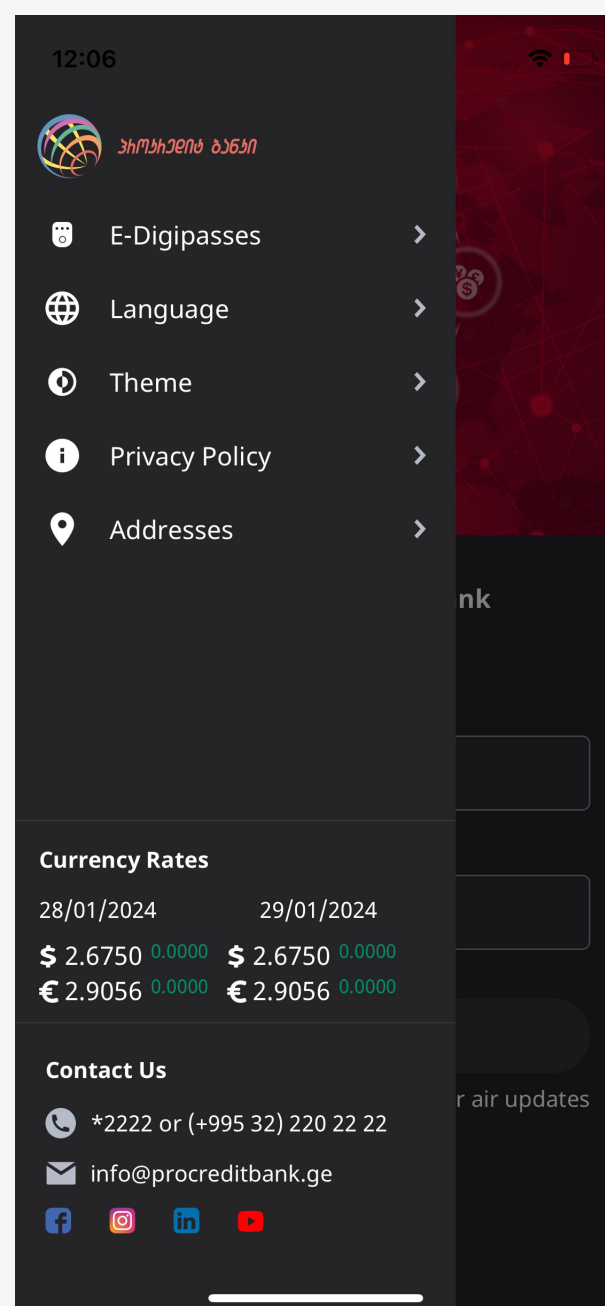

The codes will be sent in two separate messages to the email address or phone number linked to your Internet Banking account.

You can change the 4-digit PIN code from the Mobile Banking menu by navigating to My profile -> E-DigiPasses -> PIN code change.

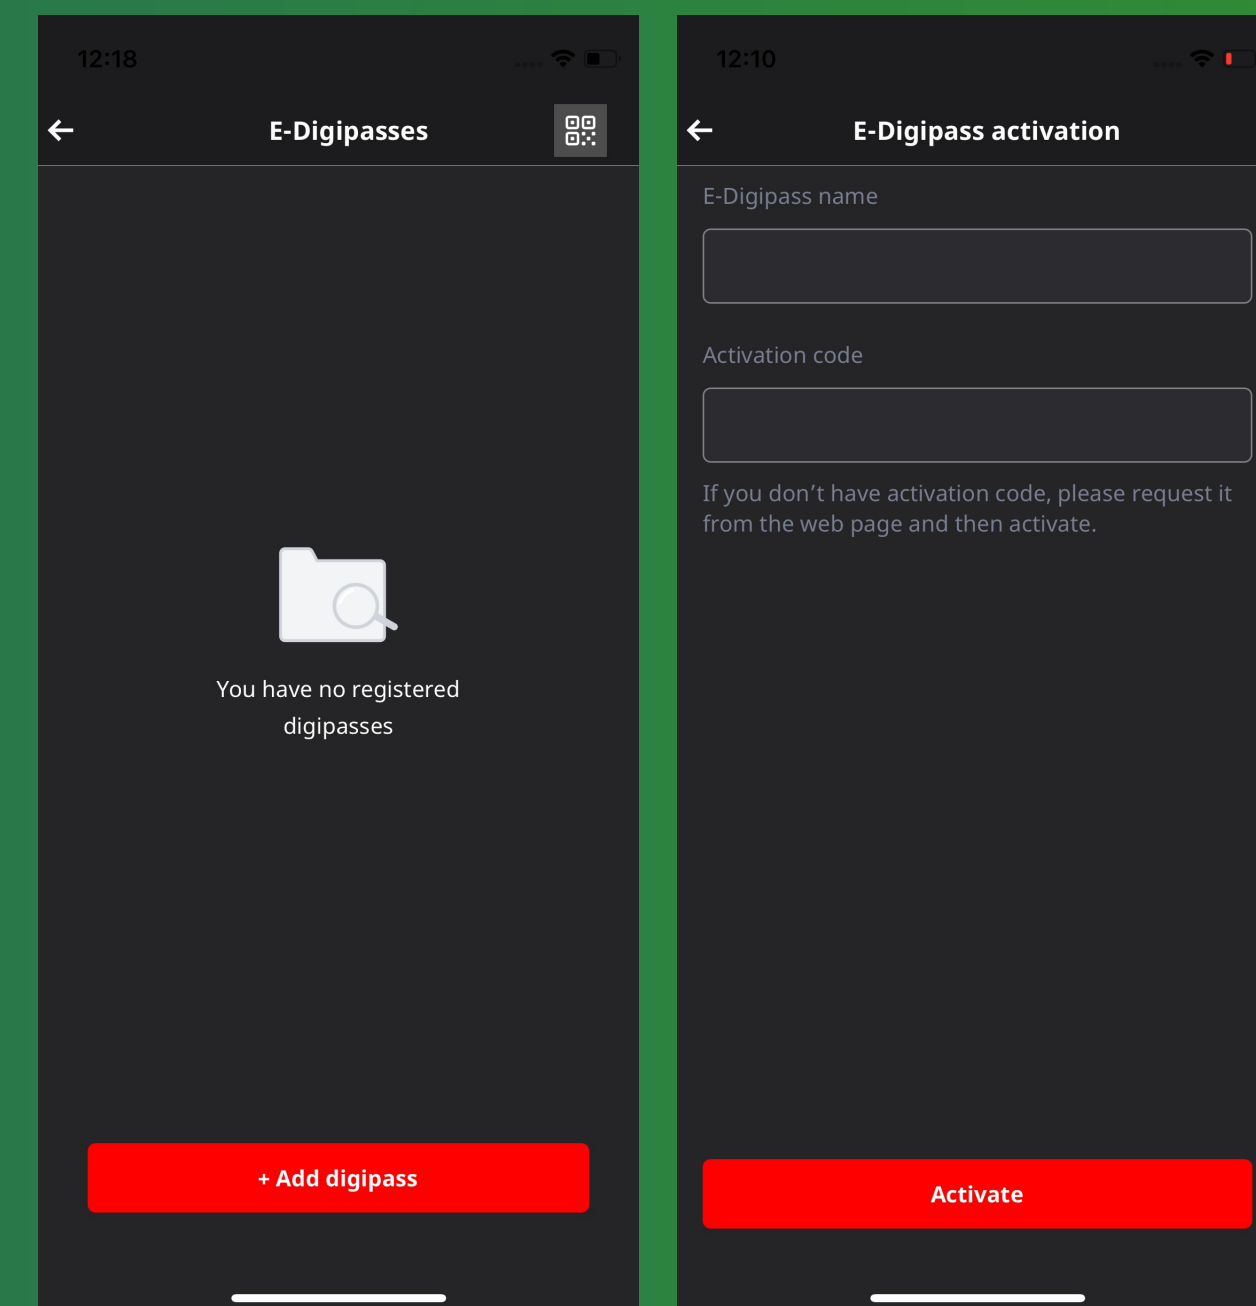

# ACTIVATION STEP

E-DigiPass can be activated from the Mobile Banking app's home page (Login Page) by selecting E-DigiPasses in the menu.

To complete the activation, you need to provide the desired name for the DigiPass to be registered in the E-Digi-Passes menu and enter the 10-digit registration code in the corresponding field.

## E-DIGIPASS UPDATE

The mobile token can be replaced with an updated e-DigiPass from the Internet Banking menu by clicking the appropriate update button (Figure 4). To do this, go to My profile -> Devices -> All devices.

The codes will be sent in two separate messages to the email address or phone number linked to your Internet Banking account.

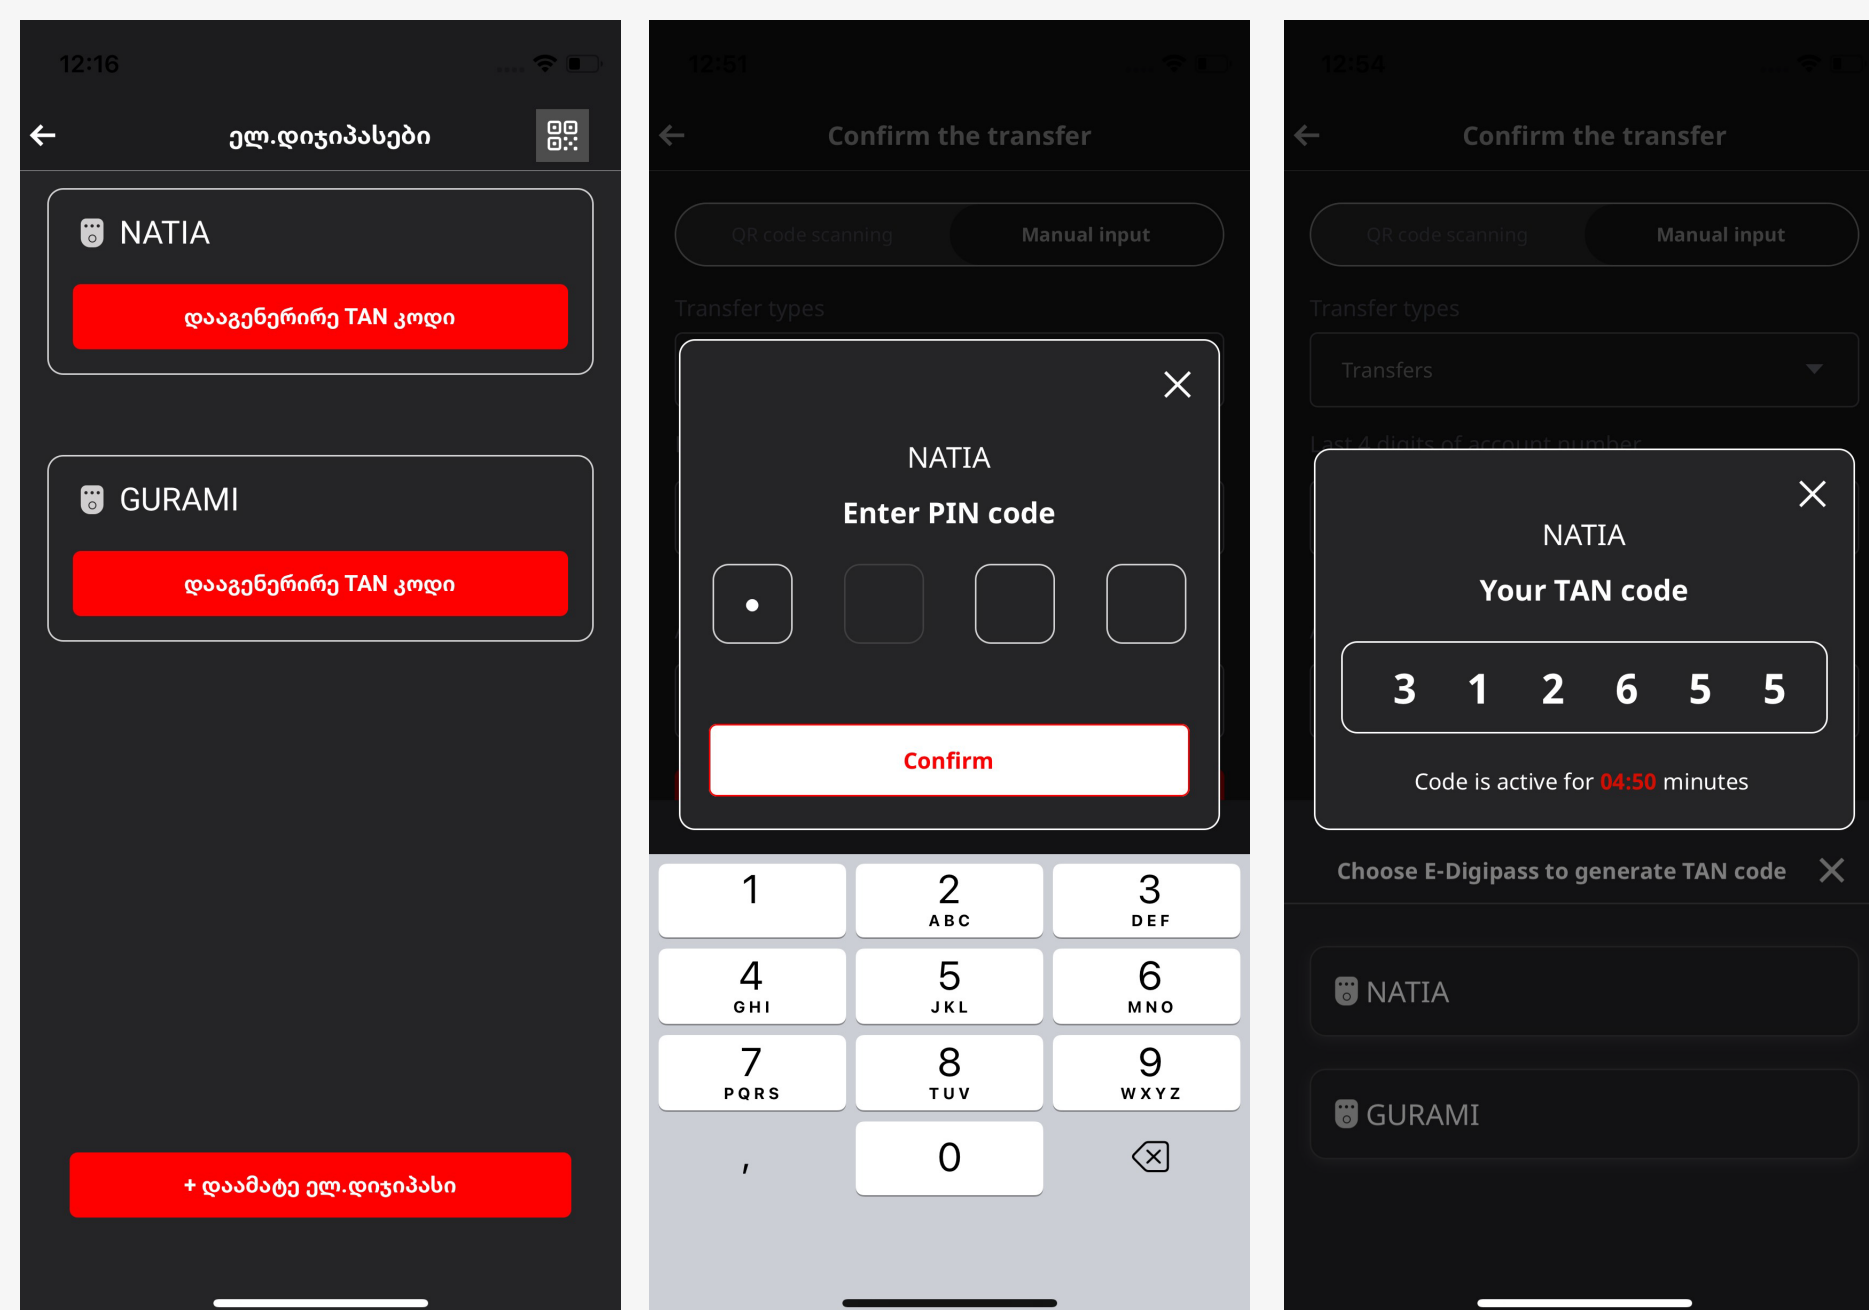

You can change the 4-digit PIN code from the Mobile Banking menu by navigating to My profile -> E-DigiPasses -> PIN code change.

# TRANSACTION CONFIRMATION WITH E-DIGIPASS

To authorize the transfer made through Internet Banking, you must enter a 4-digit PIN code into the designated field on the e-DigiPass. Once you enter the PIN code, a one-time TAN code will be automatically generated.

To authorise a transfer registered with Mobile Banking, you only need to enter a 4-digit PIN code to confirm the transfer
